

Feed the birds!

To make a bird feeder for your garden simply cut along the dotted lines then place onto cardboard and draw around each shape. Then spread peanut butter over one side of each shape. Next cover with bird seed. Attach the centre bird to the outside wreath with string then use another piece of string to hang it up!

Top tip!

We used a natural peanut butter for the best nutritional value. For more detailed instructions on how to make this please refer back to our blog!

Here's some we made!
